Good morning

I just returned to LA. I spent a week in the warm waters of Kona.. the waves varied from 1' to 3' (all good).. I swapped back and forth between surfing my stand up and my OC1 outrigger canoe.. The long left at Kahalu is perfect for both..

I have to do a road trip this summer through the Mid West for work. So we are going bring our stand up's and do some flat water paddling.. I think it will be interesting trying new waters.

I always enjoy readingyour Magazine..

With Aloha

George
